

MONTREUX ENERGY

Is pleased to present:

July 27-29, 2010 ▪ **Denver, Colorado**

“Cities as Living Systems: Managing Clean, Secure Urban Resource Demand in the Western Hemisphere”

Our world needs smart, successful investment in clean infrastructure, energy, and transport. If we are to make true progress on sustainability, cities – both old and new – provide the greatest opportunity. Organized by Montreux Energy, with over 20 years of convening international energy leaders, **CityDesign** is an interactive, invitation-only industry forum to be held **July 27-29, 2010 in Denver, Colorado** to discuss cities as living systems. CityDesign will host CEOs and government thought leaders, all with proven success with urban infrastructure, energy, carbon, water, and transportation solutions.

Topics will include:

- Energy and services for cities
- Managing urban resource demand
- Large municipal infrastructure & projects
- Transportation systems, water, waste, urban carbon footprinting
- Engineering solutions: Cities as living systems

Please contact us for a formal Roundtable agenda and application:
